University of Minnesota, Morris featured in Fiske Guide to Colleges 2014

Summary: The University of Minnesota, Morris has been named one of the country's best and most interesting colleges and universities by Fiske Guide to Colleges.

(July 3, 2013)-The University of Minnesota, Morris has been named one of the country's best and most interesting colleges and universities by *Fiske Guide to Colleges*.

Morris is featured in the 2014 edition of the *Fiske Guide to Colleges* by Edward B. Fiske. This resource book is a selective, subjective, and systematic look at 300+ colleges and universities in the United States, Canada, and Great Britain.

“Selecting the right college—one that fits a student’s interests, goals, and personality—is one of the most important decisions a young person will make,” said Bryan Herrmann, Morris director of admissions. “With more than 2,700 four-year colleges in the U.S. from which to choose, it can become an overwhelming decision. The *Fiske Guide to Colleges* is a source of information that can help college-bound students and their parents narrow their options. We are proud that the University of Minnesota, Morris is included.”

Readers will discover the real personality of Morris based on a broad range of subjects, including student body, academics, social life, financial aid, campus setting, housing, food, and extracurricular activities.

Through personal and academic discovery, the University of Minnesota, Morris provides opportunities for students to grow intellectually, engage in community, experience environmental stewardship and celebrate diversity. A renewable and sustainable educational experience, Morris prepares graduates for careers, for advanced degrees, for lifelong learning, for work world flexibility in the future, and for global citizenship.
